Washington, D.C. 20013

Dear Friend:

The greatest single frustration in the life of a Conservative network news commentator like myself is the fact that it is impossible to report all the news that should and MUST be reported.

I am restricted by things like the FCC's "fairness doctrine," and by the fact that individual stations could be coerced into discontinuing my programs.

Any commentator going on the air with the behind-the-scenes story of the Chappaquiddick Island incident, or New Left militant Jerry Rubin's role in the Kent State tragedy, or how the State Department manipulated the President into his disastrous decisions regarding Rhodesia and Biafra, puts himself in danger of being forced off the air.

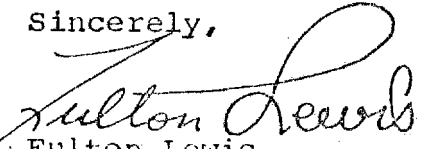

That's why I publish my weekly newsletter, EXCLUSIVE. Recent issues of EXCLUSIVE have covered the subjects above and many others of real importance to every concerned American. EXCLUSIVE brings you the facts -- facts, which you have a right to know.

Think of the many coming events that cannot be fully reported on my radio broadcasts. But you will find ALL the facts in my EXCLUSIVE newsletter, sent to you each week by First Class mail.

Because I know that other people in Washington look to you for the facts, I want to offer you a special six-month trial subscription to EXCLUSIVE for only \$11.50. But I can only extend this offer for a limited time--in fact only until March 29, 1971.

I personally guarantee that you'll be amazed by the inside details on important stories you will learn from reading EXCLUSIVE each week.

Sincerely,

Fulton Lewis

P.S. As a subscriber to EXCLUSIVE, you will not only receive weekly reports on the news behind the news, but my staff and I will be available to probe into the issues of particular concern to you. Please enter your subscription today so you will not miss a single issue--or the March 29, 1971 deadline.
